ANOTHER BATCH

Of Hawalian Correspondence Sent to Congress by the President.

THE CABLE PROPOSITION INDORSED

By the Executive-The Cession of an Uninhabited Island Desired by the English Government as a Cable Station-The President Sends a Mossage-Admiral Walker and Minister Willis Disagree.

WASHINGTON, Jan. 9.-The President to-day sent to Congress another batch of Hawaiian correspondence supplementary to the Walker report. This last chapter is full of interest, as it re veals a notable difference of opinion between Admiral Walker and United States Minister Willis. In the second place it discloses an effort being made by the British government, with the consent of the Hawaiian authorities, to secure the lease of an island of the Hawaiian group to be used as a cable station. The issue between the admiral and the minister is made plain by the following extract from a letter from Secretary Gresham to Minister Willis dated August 31 and the minister's

reply:
"A very remarkable dispatch from
Rear Admiral Walker, dated 'At Sea,
August 17,' and reporting events at
Honoldu, up to the date of his departure on the 12th, has been communiparture on the 12th, has been communicated to me by the secretary of the may for my information. I enclose a copy for your perusal. The apprehensions of the admiral do not seem to have been shared by you sufficiently to warrant your reporting the petition for the retention of the Philadelphia, which was addressed to you as well as to the naval commander, and it is trusted that our reported concurrence in that officar's views will be found due to some misapprohension. prehension.

W. Q. GRESHAM. (Signed) MR. WILLIS' VERSION OF THE TROUBLE. Mr. Willis' reply to Mr. Gresham is dated at Honolulu, September 29, and

"Sin:-I have the honor to acknowl "Sin:—I have the honor to acknow, edge the receipt of your No. 41, of the 3lst ultimo, inclosing a despatch of Rear Admiral Walker of August 17.
"The admiral, in the eleventh paragraph says: 'Before reaching this conclusion (to postpone the Philadelphia's departura). I consulted with the United

reads as follows:

departure), I consulted with the United

departure), I consulted with the United States minister, whose views entirely coincided with my own."

"Your dispatch indicates that these words of the admiral have been given a wider meaning than could have been intended by him. A brief recital of the facts may therefore be proper. On the 5th day of August I was informed by the admiral that he would leave with the Philadelphia on the 5th. On the 6th, the British minister, Major Wodehouse, having been succeeded by Mr. Hawes, made his farewell official visit to this legation, during which he menhouse, having been succeeded by Mr. Hawes, made his farewell official visit to this legation, during which he mentioned the fact that the Champion had intended to leave on that day, but some of the English residents had become nervous when they heard that the Philadelphia was also to leave, and yielding to their request, the Champion would remain until the Hyacinth arrived. Upon the same morning I made a parting call on the officers of the Philadelphia when the admiral told me that several citizens had expressed their regret at the departure of the Philadelphia before the arrival of the Charleston, which vessel was daily expected. He also expressed some surprise at the change of plans of the Champion. In view of these facts, he asked my opinion in regard to the champion. At view incess inces, he asked my opinion in regard to the detention of the Philadelphia, I replied that as the steamer Australia was due here August 11 at Sa. m., which would probably bring correct advices as to the Charleston's movements, I saw no reason if not in conflict with his orno reason it not in conflict with his or-ders (as to the nature of which I was not informed) why the Philadolphia should not wait until then. When the Australia arrived, I immediately noti-fied the admiral that no news warrant-ing his further stay had been received. He left the next morning.

CANNOT CONFIRM THE ADMIRAL'S STATE-

"The statement as to the conduct and sentiments of the British minister and captain of the British cruiser and especially as to their purpose to land troops for British advantages, and the dangers resulting therefrom to American interests, I cannot confirm. If called upon to express an opinion I should be constrained to say that during the past six months and especially since the procla-mation of the republic, the presence or absence of the British war vessels here, ought to have been regarded with indifference by our government as it is now

ought to have been regarded with indifference by our government as it is now by this government.

"The 'potition of citizens' referred to by the admiral, I did not receive until the day after our conversation. The conditions here for many months had been extremely orderly and peaceful. As stated by the petition itself, there was 'no reason to doubt the ability of the government of the republic of Hawaii, to support and sustain itself and furnish full protection to the lives and property of all residents in its territory.' In this opinion, even the enemies of the government concurred. Furthermore, on the day after receiving the petition, Mr. Hatch, the minister of foreign affairs, expressed to me his regret that it had been sent, as those he represented, welcomed the opportunity to prove to the world that they were able to take care of themselves. These, I deemed sufficient reasons for not forwarding the petition.

(Signed.) Albert S. Willis. In the first letter, October 13, 1894. Mr. Willis anys that precitations had

(Signed.) Albert S. Willis.

In the first letter, October 13, 1894, Mr. Willis says that negotiations had been pending between the Hawaiian government and representatives of Great Britain in regard to an ocean cable between Canada and Australia, touching at Necker Island or at Honolulu. He did not think that an agreement would be reached at present, owing to the clause in our treaty with Hawaii prohibiting the cessation of any of the islands to any foreign government without our consent.

rament without our consent.

The financial statement of the Hawaiian government showed a loss of revenue for the year as compared with 1893 of \$96,941, but as the expenditures were decreased by \$121,483 there was a not gain of \$24,512.

BRITISH CABLE COMMISSION.

On October 19th the minister writes as follows: "Mr. Fleming, of Canada, as follows: "Mr. Fleming, of Canada, and Mr. Morcor, of the colonial office, London, in company with Mr. Hawes, the British commissioner, returned on the 16th instant from Bird Island which they visited with the Hyacinthe, in the interest of the proposed cable. They teave to-day for home via Washington, where, they will probably submit to the President and yourself some proposition relating to their mission here. On the 16th instant Mr. Verlaye, the French

commissioner, requested that your attention be called to the fact that his countryman had just completed a cable to New Caladonia and would probably desire to extend it to Tahiti, the Hawaiian islands and the United States. For this reason he hoped that our government would not be hasty in the matter."

November 2 the minister tells of On November 2 the minister tens of the success of the full ticket of the American Union party without excite-ment, and the arrival of 900 Japanese immigrants to labor on the sugar plan-tations under contract.

THE RECIPROCITY CLAUSE.

On December 3 the cable proposition seems to have taken full shape, for on that date Mr. Willis writes: "This matter is now therefore at the request of this government submitted to the consideration of our government upon the question of its willingness to nullify the treaty of reciprocity (between the United States and Hawaii) by exempting Necker Island, French Frigate Shoals or Nihoa (Bird Islaud) from the operation of article 4 of the treaty Shoals or Nihoa (Bird Islaud) from the operation of article 4 of the treaty, which reads as follows: 'It is agreed on the part of his Hawaiian majesty that as long as this treaty shall remain in force he will not lease, nor otherwise dispose of, nor create any lien upon any port, harbor or territory of his dominions, nor grant any special privileges nor rights of use therein to any power, state or government.'

The minister expatiates at length upon the importance of the proposed cable to Hawaii and recites the fact that the government has in times past of:

the government has in times past of-fored considerable subaidies, in one case amounting to \$25,000 per annum, and the exclusive right for fifteen years to secure such a cable. As the proposi-tion is one in which the British govern-ment is directly or indirectly interest-ed, the Hawaiian government feels it-self stopped by our reciprocity treaty, from considering it until the views of our government can be ascertained.

RUMORS OF INTENDED REVOLUTION.

In his last letter, dated December 14, Minister Willis mentions the arrest of five persons on the 9th instant for conspiracy and lovying war against the re-public. He also says that there have been several rumors of intended revolu-tion, but no excitement or interruption of business. The government expresses confidence in its ability to suppress any disturbance which mighs arms. disturbance which might arise

In the course of the correspondence it is said that the Hawaiian republic has been formally recognized by France, Mexico, Great Britain, Japan, Switzerland, Russia and Guatamela.

PRESIDENT CLEVELAND'S MESSAGE. The above correspondence was trans-

mitted with the following message from the President: To the senate and house of representatives.
"I submit herewith certain dispatches

from our minister at Hawaii and the documents which accompanied the "They disclose the fact that the Ha-

"They disclose the fact that the Ha-walian government desires to lease to Great Britain one of the uninhabited islands belonging to Hawaii as a station for submarine telegraph cable to be laid from Canada to Australia with a con-nection between the island leased and Honolulu.
"Both the Hawaiian government and Honolulu.

"Both the Hawaiian government and the representatives of Great Britain in this negotiation concede that the proposed lease cannot be effected without the consent of the United States for the

reason that in our reciprocity treaty with the king of Hawaii he agreed that as long as said treaty remained in force he would not lease or otherwise dispose of or create any lien upon any port, harbor, or other territory in his dominion or grant any special privilege or right or use therein to any other power, state or government. state or government.

state or government.
"At the request of the Hawaiian government this subject is laid before the Congress for its determination upon the question of so modifying the treaty agreement above recited as to permi the proposed lease.
"It will be see

"It will be seen that the corres-pondence which is submitted between the Hawaiian and British negotiators, negatives the existence on the part of Hawaii of any suspicion of British unfriendliness or the fear of British aggression.

(Signed) "GROVER CLEVELAND."

Laidlaw-Sage Case Again.

New York, Jan. S .- The work of selecting a jury for the third trial of the action of William R. Laidlaw to recover \$100,000 damages from Russell Sage, on the ground that Sage made a bomb shield of Laidlaw, was bogun be-fore Justice Patterson, of the supremo court, to-day. On the first trial Justice Andrew dismissed the case, holding that Laidlaw had failed to show that Sage had removed him from a place of salety. At the second trial the jury brought in a verdict of \$55,000 in favor of Laidlaw. In both cases the general term ordered a reversal.
